OF COMPANIES

BRINGING YOU POWER GENERATION  
AND LIGHTING PRODUCTS

# FUSTEQ SERIES /// STAGE V

RENTAL SPEC.

All **STAGE V** compliant equipment contained within our compact **FUSTEQ** SERIES canopies

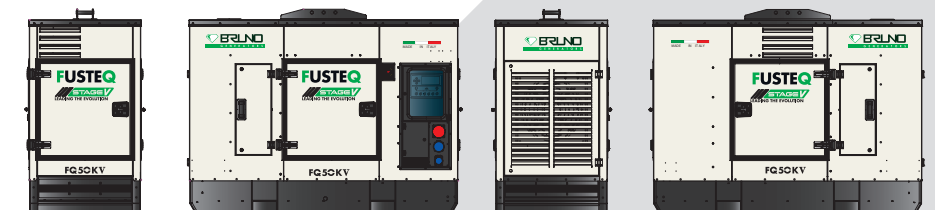

**INNOVATIVE  
COOLING SYSTEM**

## MAIN FEATURES

- Fully compliant **STAGE V** engine
- Ultra-silent compact canopy 53dBA @ 7m
- Patented VSi technology continuously rated up to 55°C ambient

# EQUIPMENT

- Compact hot dipped galvanised powder coated canopy
- Cooling system with independent electric fans and patented VSi technology
- Fully bunded (all liquids)
- Bund alarm
- 3-way valve
- External fuel-tank sensor
- Central lifting point
- Forklift pockets
- Hardwired with microswitch protection over Busbar door
- Socket kit
- Variable earth leakage circuit breaker
- DeepSea 7310 auto-start control panel
- DeepSea 8610 load-share option
- Battery charger
- Battery isolator
- Sump oil vac pump
- Fuel cooling system
- DPF filter complete with LED status display
- SCR System for >70kVA

# OPTIONS

- Engine heater
- Racor filter
- Choice of control panel manufacturers
- Power locks
- Road trailer
- Remote monitoring system
- Long run AdBlue management solutions

# GX SERIES

## RENTAL SPEC.

The New GX **STAGE V** RENTAL series from BRUNO are a complete range of compliant generating sets up to 550kVA with built in extended run AdBlue tank and DPF filtration systems.

The rugged BRUNO hot dip galvanised powder coated sound suppressed canopy affords superb longevity in the toughest of RENTAL applications making the GX the set of choice for many of the leading UK and European rental companies.

# EQUIPMENT

- Compact hot dipped galvanised powder coated canopy
- Fully bunded (all liquids)
- Bund alarm
- 3-way valve
- External fuel-tank sensor
- Central lifting point
- Forklift pockets
- Hardwired with microswitch protection over Busbar door
- Socket kit
- Variable earth leakage circuit breaker
- DeepSea 7310 auto-start control panel
- DeepSea 8610 load-share option
- Battery charger
- Battery isolator
- Sump oil vac pump
- Fuel cooling system
- DPF filter complete with LED status display
- SCR System for >70kVA

# OPTIONS

- Engine heater
- Racor filter
- Choice of control panel manufacturers
- Power locks
- Road trailer
- Remote monitoring system
- Long run AdBlue management solutions

# **TWINPACK**

- Combined power nodes 300-1320 kVA
- Mounted in custom built 20&40 Ft containers
- Long run autonomy in respect of both fuel and AdBlue
- Ultra low noise levels - **STAGE V** low emissions
- Load share /AMF/auto start - control panel (choice of options)
- Copper Busbar and distribution panel options

# CABIN POWER

## THE COMPLETE WELFARE SOLUTION

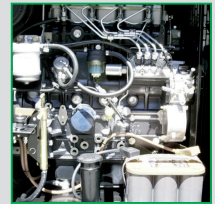

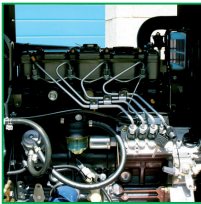

GX20CP

GX10CP

GX14CP

All Service Access on control panel side — OIL: filler-filter-dip stick. FUEL: filler-filter. BATTERY: isolator-relays-fuses

### Features

Deep Sea 7310 Autostart Control Panel with Sleep facility

Varying Air Inlet / Outlet and Exhaust options to suit differing cabin louvres

### Standard Equipment

DS7310 with Sleep Mode  
Emergency Stop Button

\*Long Range Tank available

Central lift Point

Fork Lift Pockets

Drop off Canopy Top & Rear Door

Complete Engine Access in situ

Fully Bundled Base

Battery Isolator Switch

Long Life Optima Gel Battery

Distribution Board via Single Phase Socket or Hardwire

1500rpm Water Cooled Diesel Engine

Low Noise Levels — less than 75db at 1m

External Volt Free Contacts for Remote Start

Variable Earth Leakage Circuit Breaker

Automatic Voltage Regulator  
Controlled Alternator

A BRUNO GROUP COMPANY

Hybrid Power Generator with **STAGE V** Engine  
**LITHIUM BATTERIES** and **SOLAR PANELS**

20FT ISO CONTAINER

## MAIN FEATURES

- **Versatile Power Supply**
- Built in Generator – Solar, Wind or Mains
- **Lower CO<sub>2</sub> Emissions**
- **Electric Car Charger** connection options
- Lithium Batteries 30kW – Made in Europe
- **Variable Speed System**  
Engine-fan cooling
- **Photovoltaic Batteries**

The Smart Energy Storage System with  
**LITHIUM BATTERY** and **INTEGRATED  
INVERTER/CHARGER**

**230V - SINGLE PHASE / 50HZ**

**400/230V - THREE PHASE / 50HZ**

## STANDARD EQUIPMENT

- Digital Control Panel
- Distribution Panel
- Canopy made of powder coated galvanised steel
- Central lifting eye
- Forklift pockets

# OMC TRAILERS

Recently acquired by the Bruno group OMC manufacture a range of single and double axle generator and plant trailers.

All trailers are type approved CE tested and are ideal for road tow generators and lighting towers.

# **SMC TL90 - EVOLVE**

## **LIGHTING TOWER WITH LED TECHNOLOGY**

- 144,000 lumens
- 355° mast rotation
- 185 hours run time
- Super-silent operation
- 4 adjustable stabilisers

The SMC TL90 Evolve is the next generation SMC TL90 lighting tower. It combines over 30 years of experience and development, offering all the functionality of the market leading TL90 but with a new ergonomic design and compact appearance. It has three lamp-head options; the standard four LED head, the ground-breaking Halo soft light solution, or the six LED head. This makes it the brightest SMC mobile LED lighting tower ever.

The compact design of the TL90 Evolve allows for easier access for servicing, smoother lines and a shorter body for ease of transport. There is no compromise on efficiency - it has an impressive 185 hour run time. Mounted on a VCA approved fast tow road trailer, complete with road lights, it is just 960kg fully fuelled. The tower is super silent at 60dB(A) from 7m and is fuel efficient.

# LiON LIGHT - ST

## HYBRID LIGHTING TOWER WITH LED TECHNOLOGY AND A 9 HOUR LITHIUM BATTERY AUTONOMY

- Lower CO<sub>2</sub>
- Lower fuel consumption
- No acoustic pollution\*
- Suitable for indoor use\*
- 2300 hours engine maintenance intervals
- 750 hours fuel autonomy
- Instant light
- Low low voltage (48 V) for improved safety
- Vegetable Biodegradable hydraulic oil
- Performance optimized with Variable Speed System

\*in battery mode

### EQUIPMENT

- 4 x 115W LED projectors (total power 460W)
- Galvanised steel hydraulic mast
- Deployment time: 15 seconds
- Mast extendable up to 9 m
- 350° Mast rotation with brake
- Galvanised steel soundproofed canopy
- Fully banded
- Oil extraction pump
- 4 adjustable stabiliser legs
- 2 Battery isolators switches (engine and batteries)
- Remote monitoring (available as an option)
- Dusk till dawn sensor

# LiON LIGHT - RT

# REFURBS

FULL OR PARTIAL WORKSHOP REBUILD OR  
REFURBISHMENT CARRIED OUT

## INCLUDING

- Inspection and quote.
- Engine/Alternator replacement or rebuild.
- Canopy repairs/replacement.
- Control Panel servicing and upgrades.
- Full Load Test.
- + Warranty

ESTIMATES CAN BE PROVIDED FOR INSURANCE PURPOSES

# SERVICE

Full onsite Testing – Service/Repair and Load Banking by our highly skilled and specialist team of Generator Engineers.

Over the phone Diagnostic Service.

# SPARES

BGG supplies Engine/Alternator/Control Panel spares for all of the leading manufacturers equipment including:

**Engines Including:** Cummins – Volvo – Iveco – Scania – Perkins – MTU – MAN – Kubota – Yanmar – Mitsubishi.

**Alternators including:** Leroy Somer – Mecc Alte – Sincro – Standford.

**Control Panels including:** Deep Sea – Comap – DIELF – Elcos.

## SERVICE KIT BOX FILTERS – BELTS – OILS

Just advise the Engine & Hours  
We box and send the appropriate kit.

For any servicing or  
aftercare enquiries
