ULTRA SILENT GENERATORS FOR ANY EVENT

RESIDENTIAL

RENTAL

EVENT MASTER SERIES

EVENT MASTER is a series of supersilenced 1500rpm, water-cooled generating sets powered from 9 to 250 kVA.

The **EVENT MASTER** gensets are ideal for the entertainment industry (film, music...) and for residential areas (hotels, residences...) and are equipped with PERKINS, CUMMINS, JOHN DEERE, VOLVO PENTA, MITSUBISHI, LOMBARDINI AND IVECO industrial engines and with alternators of some of the world's most renowned brands.

EM SOUNDPROOF CANOPY

The special **Bruno EVENT MASTER** canopy is made of GALVANIZED STEEL which is pre-treated before being powder painted. The generators include internal DOUBLE RESIDENTIAL SILENCERS and SOUNDPROOFED TUNNELS. This enables maximum noise reduction and more effective air flow.

The generators have been painted BLACK which is beneficial to applications in the film industry because the machines can be more readily hidden with photo editing applications.

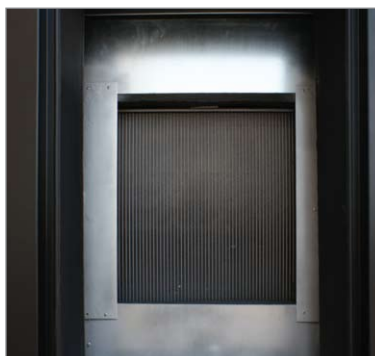

AMPLE ACCESS

▲ Hot galvanized standard canopy

▲ Powder coating

▲ High servicing level for radiator cleaning

▲ Easy access for maintenance operation

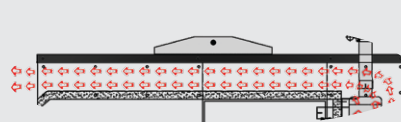

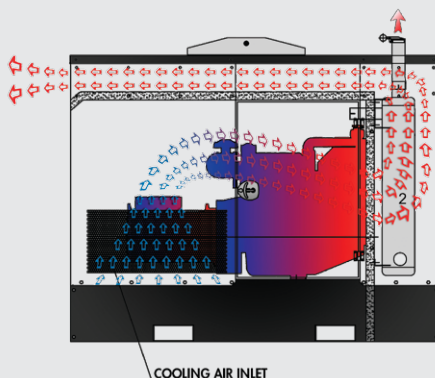

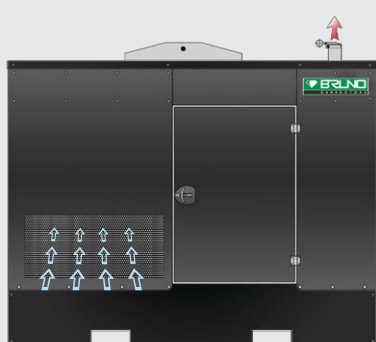

DOUBLE SILENCER

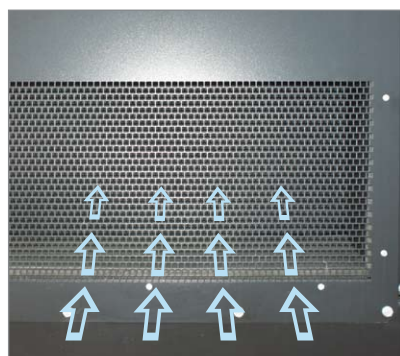

▲ Double residential silencer
Double silencieux résidentiel

COOLING AIR FLOW

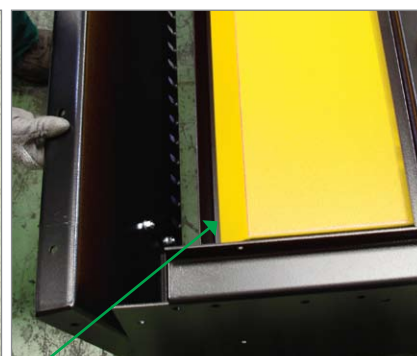

▲ SOUND PROOF TUNNEL
Air flow conveyed inside
a soundproofed tunnel

▲ Air inlet

▲ Bunded tank

EASY HANDLING

The **EVENT MASTER** generating sets are designed to allow EASE OF HANDLING.

They can be easily moved with a forklift or a crane through their central lifting eye. Their baseframe is also equipped with drag points and bumpers.

▲ Drag points on heavy duty baseframe (option)

HEAVY DUTY BASE FRAME

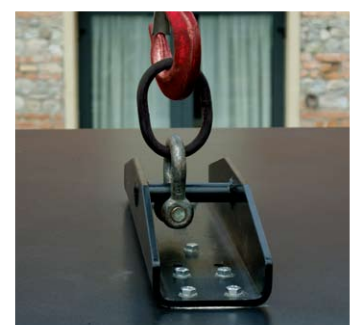

REQUEST, THE **EVENT MASTER** SERIES CAN BE SUPPLIED WITH A SPECIAL HEAVY DUTY BASE FRAME, VERY SOLID AND WITH DRAG POINTS FOR SAFE AND EASY HANDLING ESPECIALLY ON CONSTRUCTION SITES.

▲ Baseframe protection

▶ Central lifting eye

HEAVY DUTY DESIGN

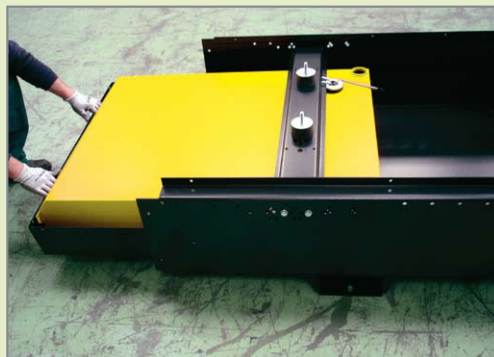

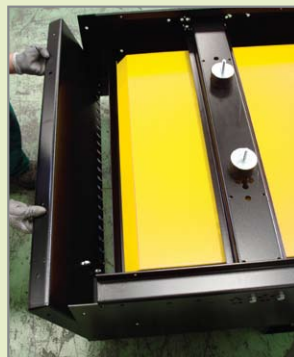

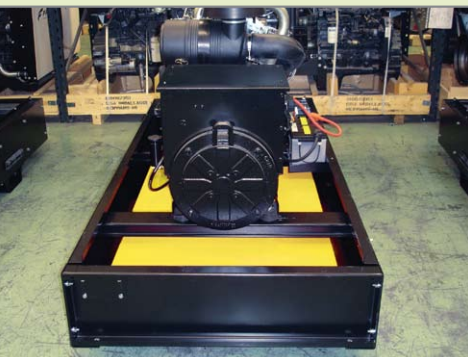

THE GENERATING SETS OF THE **EVENT MASTER** SERIES ARE DESIGNED AND BUILT ACCORDING TO HIGH QUALITY STANDARDS TO BETTER MEET REQUIREMENTS OF LOW NOISE LEVEL, ROBUSTNESS AND RELIABILITY.

BUNDED FUEL TANK

These generating sets are equipped with A FULLY WITHDRAWABLE FUEL TANK. Access points for easy inspection and fuel tank cleaning, with internal baffles to prevent excessive fuel sloshing, are available on request. The fuel tanks are tested in a watertight container to check possible fuel leakage.

▲ High quality vibration dampers

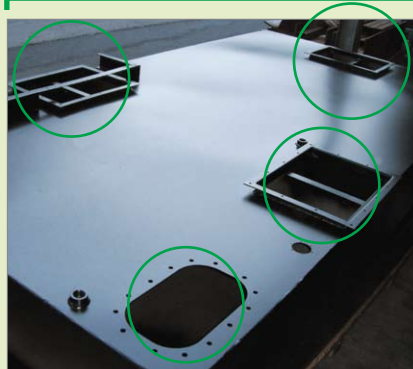

▲ Bund base alarm

FOR HEAVY DUTY APPLICATIONS

▼ Fuel leakage detection test

▼ Internal baffles for fuel sloshing control for tanks with capacity > 270 l

SAFETY AT FIRST

1

2

3

4

BRUNO OFFERS A WIDE RANGE OF ACCESSORIES TO INCREASE THE LEVE OF SAFETY OF ITS MACHINES.

- 1 IP65 control module protection
- 2 Grounding rod
- 3 Door opening alarm
- 4 Lockable access doors

MECHANICAL OPTIONS

▲ Water separator filter Racor type

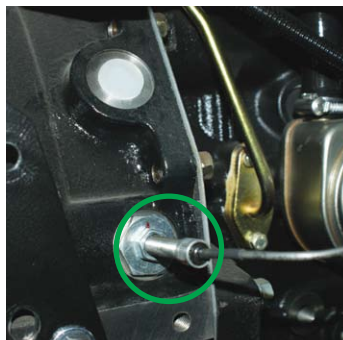

▲ Diesel-powered heater

▲ Electric engine water heater

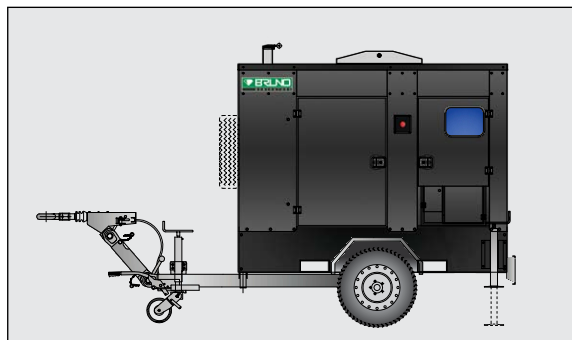

▲ Glow plugs

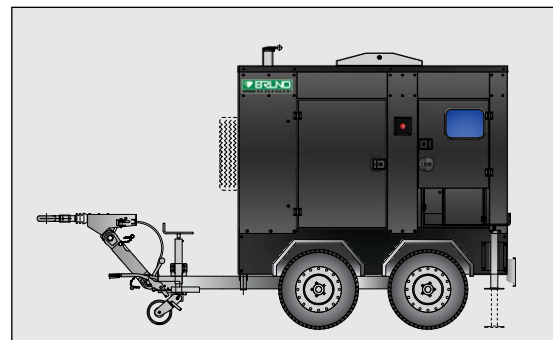

▲ Electronic speed regulator

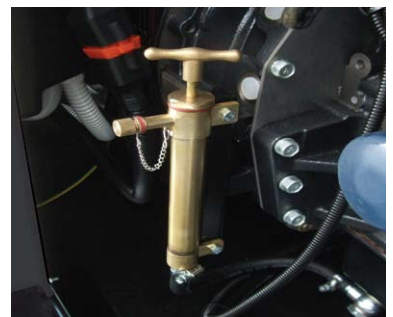

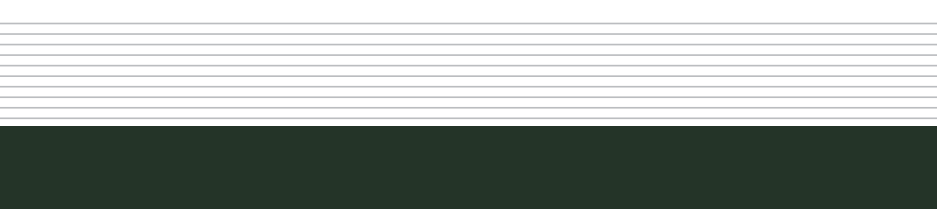

A NUMBER OF MECHANICAL OPTIONS ARE AVAILABLE ON REQUEST TO CUSTOMIZE THE **EVENT MASTER** GENSETS ACCORDING TO THE NEEDS OF THE END USERS.

▲ Single-axle road trailer

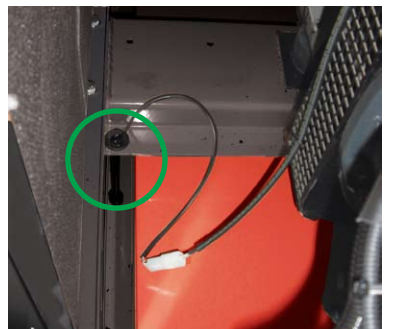

▲ Biaxial road trailer

▲ Oil extraction pump

▲ Oil extraction pump

▲ Bund base alarm

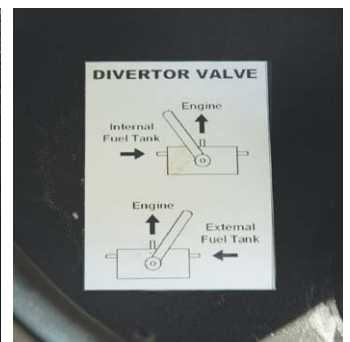

▲ Mechanical fuel level indicator

▲ Automatic fuel refilling kit

▲ Divertor valve kit for external fuel tank

ELECTRICAL OPTIONS

▲ Voltage potentiometer

▲ Frequency potentiometer

EVENT MASTER

IDEAL FOR THE

▲ 50-60 Hz switch

▲ Battery isolator switch

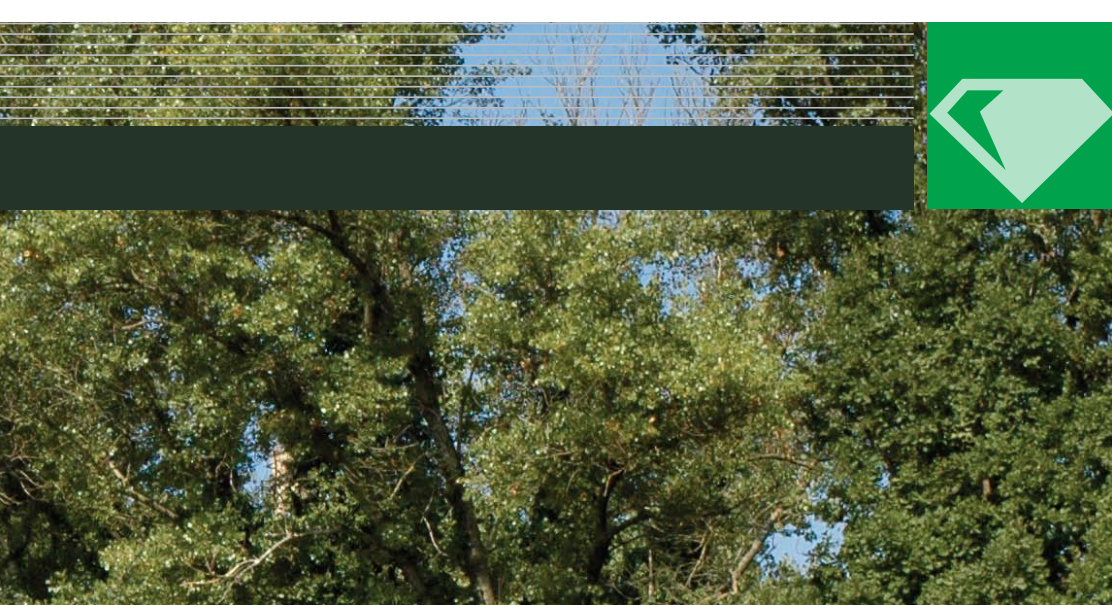

▲ Free maintenance battery

▲ Battery charger

▲ 440-220 Volt switch

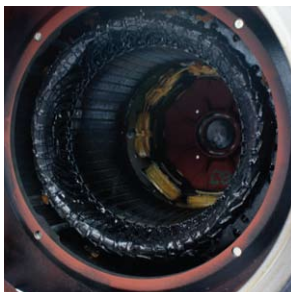

FILMING INDUSTRY

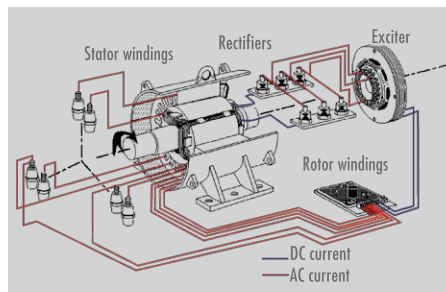

▲ Easy access to the genset's controller

▲ Alternator butadienic protective treatment

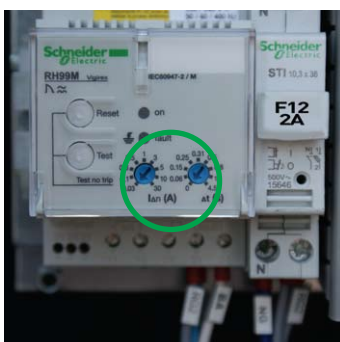

▲ Alternator anti-condensation heater

▲ Excitation device allowing 300% current for 10s

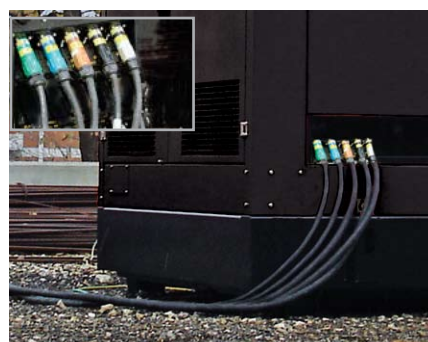

▲ Distribution board with sockets kit and power busbar

▲ Adjustable ELCB

▲ ELCB ON/OFF key switch

▲ Power locks

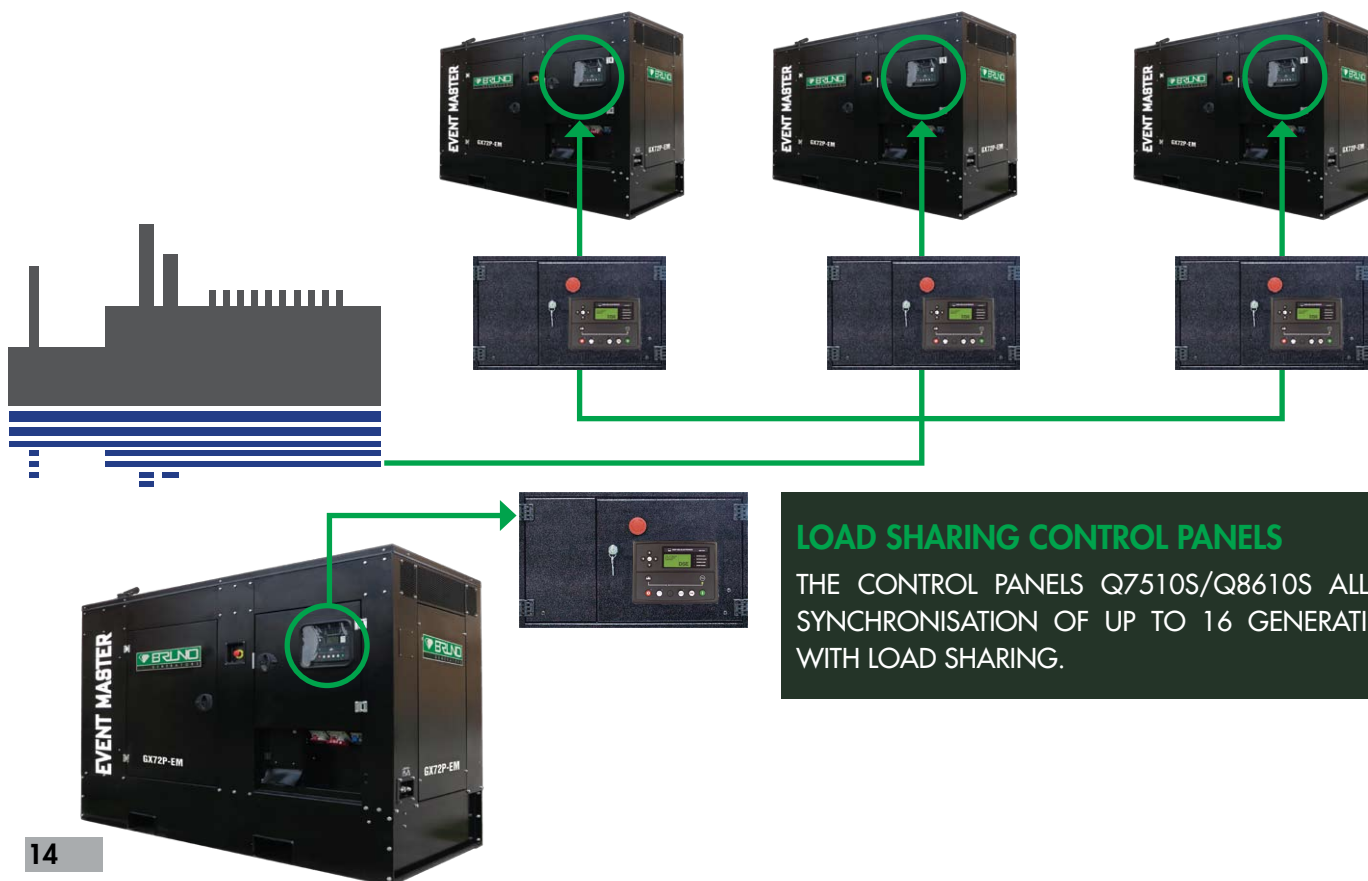

▲ Non UE sockets

SYNCHRONIZING CONTROL PANELS

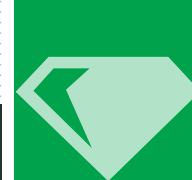

Q7510S/Q8610S

LOAD SHARING CONTROL PANELS

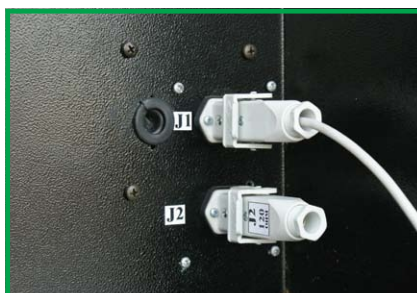

THE CONTROL PANELS Q7510S/Q8610S ALLOW THE SYNCHRONISATION OF UP TO 16 GENERATING SETS WITH LOAD SHARING.

BRUNO offers the opportunity to equip the **EVENT MASTER** generators with innovative and very compact synchronizing control panels (between generating sets or between generating set and mains) to create power stations with high power production and efficient load sharing among different generators.

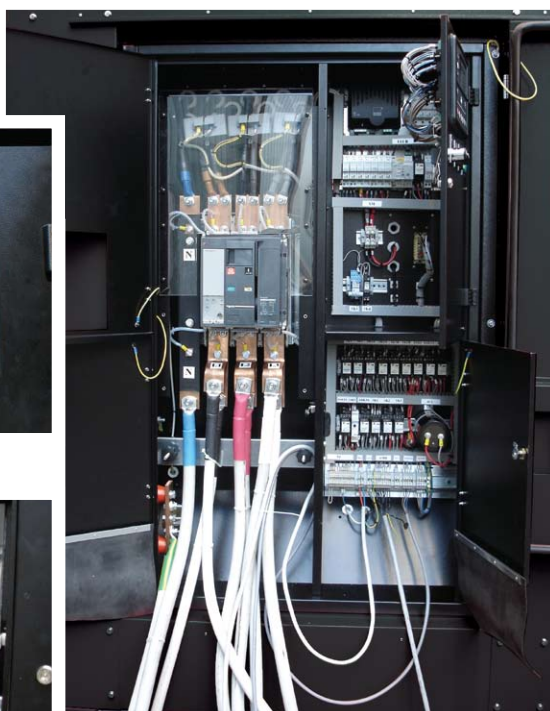

▲ Motorized circuit breaker for synchronization of generating sets

▲ Synchronizing connectors

Q7520S/Q8620S

◀ Power terminal board for synchronization with the mains

SYNCHRONISING CONTROL PANEL BETWEEN 1 GENERATING SET AND THE MAINS

The control panel Q7520S/Q8620S allows the synchronisation between 1 generating set and mains with peak shaving/looping, mains import/export control and soft load ramping to and from the mains supply.

CONTROLS

Stop/Reset - Auto - Test - Manual - Start - Lamp test/Mute - LCD Display Scroll - Circuit breaker control.
